

Leadership Saskatoon – Executive Director (Part-Time)

Leadership Saskatoon is one of Canada’s longest running, community leadership programs and we are looking for our next Executive Director to lead our organization and to help our organization grow and evolve.

For 22 years, Leadership Saskatoon has been home to a nine-month long, cohort-based leadership development program that many participants call “life-changing”. Our program is a full immersion into better understanding our local community, personal leadership, and the intersection between the two.

As the Executive Director, you will work with and report directly to the Board of Directors and are responsible for providing leadership and oversight to finance and operations, administration, sponsorship and fundraising, community engagement, and program and service activities of the organization.

Drawing upon your experience in the non-profit sector, you will lead a team made of staff and volunteers in not only implementing the annual program of Leadership Saskatoon but developing strategies and plans for its future. You will also be responsible for developing relationships across many sectors with the goal of building partnerships for the long-term support of the organization.

We are looking for an individual with a proven record of success in supporting non-profit organizations with progressive experience in leadership development, fundraising, administration, and/or community engagement. A post-secondary degree in a relevant field would be considered an asset.

About Leadership Saskatoon

Our mission is to develop effective collaborative leaders by building awareness and understanding which inspires involvement in building an inclusive community.

Four values that distinguish Leadership Saskatoon are:

- Citizen engagement
- Collaboration
- Inclusion/diversity
- Life long learning

One of Leadership Saskatoon’s greatest strengths is its network of graduates, volunteers, and supporters with close to 1000 individuals with a direct connection to the organization.
